Lawrence Hospital Center Cancer Survivorship Program

Lawrence Hospital Center's Cancer Survivorship Program addresses the needs of people who have had a diagnosis of cancer and have completed therapy. Cancer survivorship medicine is an emerging field that focuses on the health and wellbeing of patients after treatment for cancer, identifying and managing the many challenges that cancer and its treatment creates—physical, emotional, social or spiritual. Evaluation, support, education, and treatment for the cancer survivor after completion of therapy with the goal of improving overall health and enhancing quality of life.
